PARINGA ARCHERY CLUB INDOOR FACILITY LETTER OF SUPPORT

At our most recent Archery Society of Tasmania meeting on the 12th of March 2017 the committee was very pleased to hear that significant progress had been made in heading towards securing all the resources necessary for the construction of a new indoor archery facility at Paringa Archery Club. This type of infrastructure development is absolutely crucial to the next phase of the development of our sport here in Tasmania. As a sporting organisation we already 'punch well above our weight' in national and international competition but we are hampered by restricted training opportunities during the winter months and a facility like this will not only enable our elite archers to train to the next level but will also enable all archers to maintain their momentum in the sport during some of the more severe weather conditions we experience during the year.

Out of respect for the tireless efforts of your club to build a strong resource base from which to approach this project and with an understanding that you may very well not need any financial support from the Archery Society of Tasmania we are happy to consider underwriting a loan of up to \$15 000 to ensure the success of this excellent project.

Congratulations on all your hard work to date. We couldn't be more proud of your efforts and the contribution this will make to the life of our sport in Tasmania.

Best Regards
Rob Fiddymont
